

GREEN BAY FIRE FIGHTERS TRIBUTE

Actual Scale Model of Tribute

For over a century, the Green Bay Fire Department and the brave men and women who wore the uniform served honorably, and often retired to anonymity. Over time, far too many of these brave fire fighters have been forgotten and lost to history.

Now, through the efforts of a group of private citizens and a contingent of current Green Bay Fire fighters, an effort is being made to identify and recognize every individual who ever proudly served the City of Green Bay Fire Department. Since mid 2007 this group has been researching names, following leads and designing a lasting tribute where our fire fighters can and will be permanently remembered.

The project, The Green Bay Fire Fighters Tribute has received the support and approval of the Green Bay City Council, Parks Department and the Green Bay Chamber of Commerce. Located along the banks of the Fox River, just south of the 9/11 Memorial near the Neville Public Museum.

The tribute will consist of traditional fire fighting symbolism, two granite benches that will provide a place of solitude where family and friends can reflect upon the loyal service to the city by their loved ones. In addition, each fire fighter that ever served the City of Green Bay will have a brick engraved with their name that will serve as the foundation and walkway to the tribute.

We are now looking for the support of the community to assist us in bringing this well deserved tribute to a reality. Please consider giving a financial donation to the tribute. From each donation, 100% of the money collected will be solely used for the costs associated with the construction, landscaping and the continuous annual maintenance of the tribute. Additional named bricks will be added to the Green Bay Fire Fighter Tribute on an annual basis, to reflect and recognize those members retiring or moving on.

The Green Bay Fire Fighters Tribute is a 501 (c) 3 non-profit organization. Your donation may be tax deductible consult your accountant.
